

10th FENS Forum of Neuroscience

July 2-6, 2016 | Copenhagen, Denmark

Organised by the Federation of European Neuroscience Societies (FENS)
Hosted by the Danish Society for Neuroscience

FENS | Federation of
European
Neurosciences
Societies

The FENS Forum is Europe's preeminent neuroscience meeting: where European Neuroscience Meets the World. By uniting thousands of participants, the FENS Forum 2016 will facilitate and promote the exchange of knowledge and neuroscience research. Molecules and photons, neurodegenerative diseases, and stem cells are only a few of the key topics to be covered by a top-level scientific program, alongside lively networking and social events. The FENS Forum is a meeting point for the world's top experts, mid-career scientists, post-docs, and students.
